

Subscribe to the District E-Blast

For the occasional important (non-emergency) message from the Board of Education or superintendent, the East Islip School District will periodically initiate email communications of a districtwide nature.

Any residents interested in receiving these correspondences are encouraged to complete this [form](#).

Parents who have previously provided the district with their email addresses have been automatically enrolled in our email messaging system. Any parent who needs to update their email address should do so through the Infinite Campus Parent Portal. The form linked above should only be used by community members without children in the schools.
